# Garlinghouse "YOUR NEW HOME PLANS"

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 22 different plan books listed on the back cover of this book and in them are more than 1,250 designs from which you may choose the one you wish to build.

## Complete Plans Available

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

**THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS** as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

**MINOR ALTERATIONS CAN BE MADE BY BUILDERS**—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U.S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

**TO OBTAIN COST ESTIMATES**—An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

**ALL PLANS SENT ON MONEY BACK GUARANTEE**—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

## Order Your Plans This Simple, Easy Way!

**USE THE HANDY ORDER BLANK ATTACHED!** Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order.

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book and all of our other books (listed on the back cover) at the prices listed with the design (\$7.50 to \$25 per set). Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

**PLANS**—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

**SPECIFICATIONS**—The specifications explain in

detail the construction of the house from the excavation to the interior decoration.

**LUMBER AND MILL LISTS**—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

**USE THE HANDY ORDER BLANK ATTACHED!**

T. G. BRANHAM

Printed in U. S. A.

Select the design for your new home from a Garlinghouse Plan Book and send for the complete plans, specifications, lumber and mill lists. Secure them from your dealer, Loan Company, or The L. F. Garlinghouse Company, Inc., Topeka, Kansas. Plans for every design in this book and all the books listed on the back cover are available for prompt shipment on receipt of order.

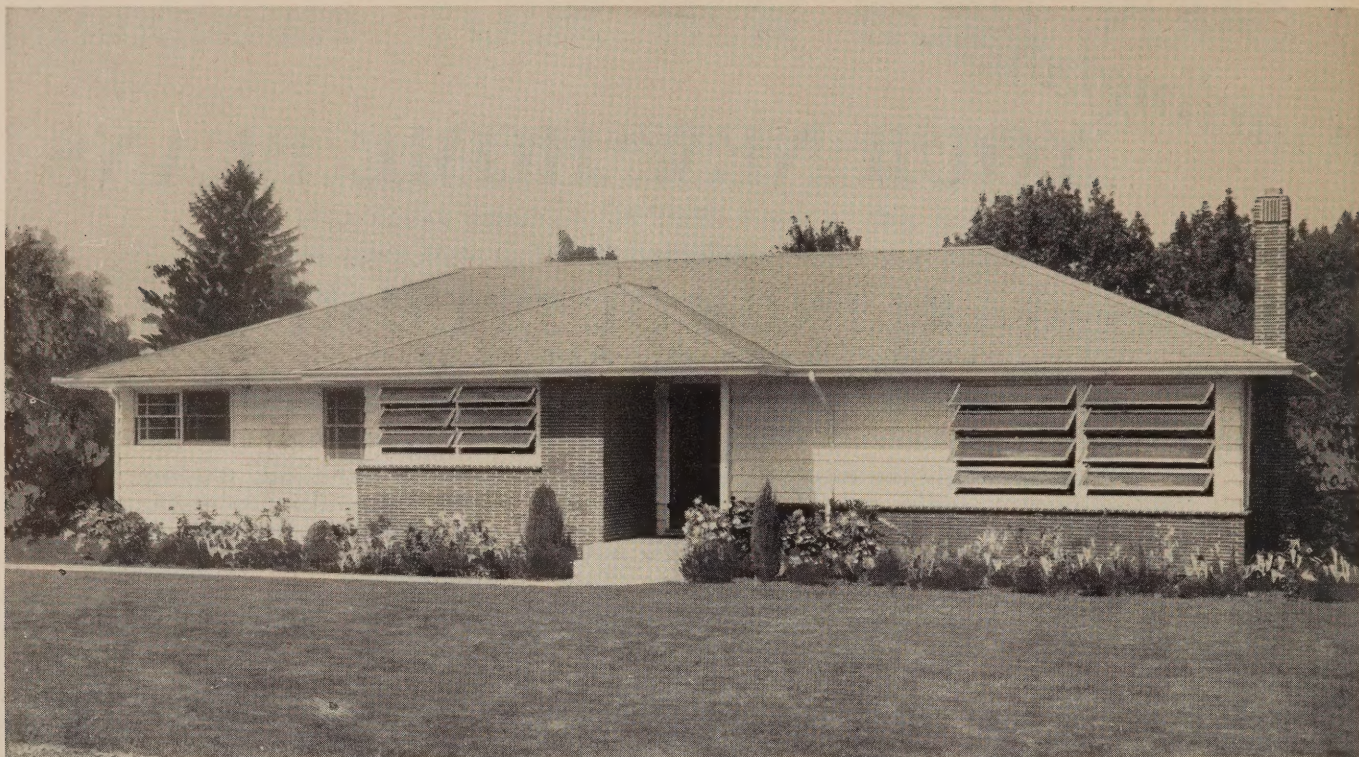

No. 5734—There are many “extras” featured in this beautiful home. The bow window in the living room, the impressive entrance and sturdy appearance of the cut stone are only a few of them. In addition, the living room includes a built-in desk and bookcase and is out of the line of unnecessary traffic. The kitchen includes a breakfast booth that does not affect the efficient arrangement. Ample closet space is provided.

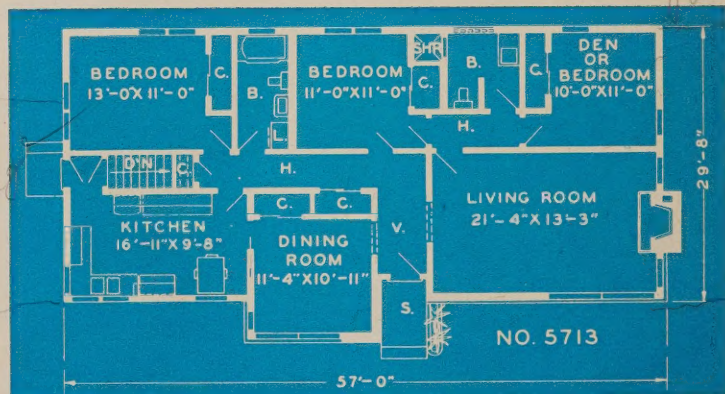

Complete plans as shown or reversed,  
specifications, lumber  
and mill list . . . \$22.50  
Duplicate sets with original  
order . . . Per set, 5.00

1,300	First Floor	11,570
1,300	Basement	10,400
	Attic	5,850

**No. 5713**—The dining room has been extended out and finished with brick veneer to add contrast to the long, low lines of this ranch home. The floor plan features ease of circulation between rooms. The large kitchen includes space for a breakfast table without crowding. If the width of your lot permits a breezeway and garage could be attached alongside the house with entrance at kitchen door.

Complete plans as shown or reversed, specifications, lumber and mill list . . . \$20.00

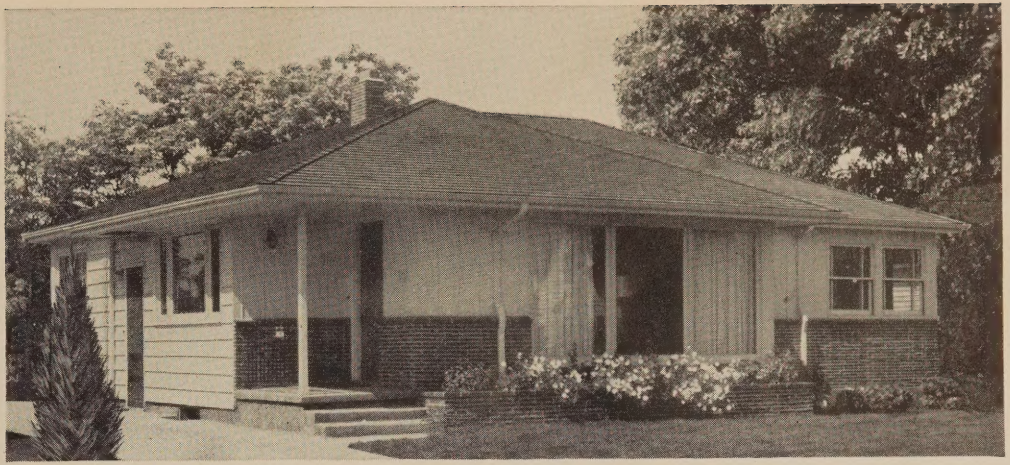

Duplicate sets with original order . . . Per set, 5.00

1,507	Basement	12,056
	Attic	4,521

Because owning a Home is probably one of the most important investments you will ever make, it demands careful planning.

*The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot or cubic-foot basis.*

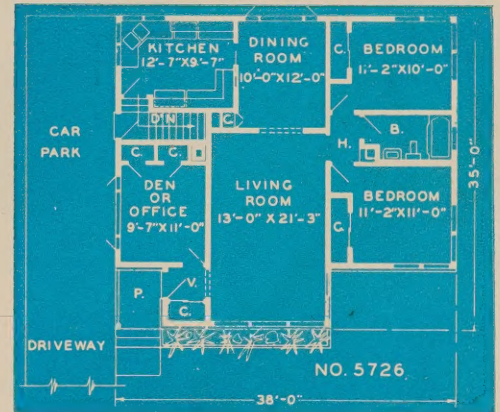

Into the development of these plans has been packed over 40 years experience helping thousands of families build homes of maximum quality at minimum cost.

**No. 5726**—For the prospective homebuilder that requires space for an office, this plan should be ideal. Note how the “Den or Office” is located almost completely separated from the remainder of the house. This will provide a measure of privacy for either a den or office yet will not detract from the outward appearance of the home. Exterior walls are frame with horizontal and vertical siding and roman brick veneer used across the front.

Complete plans as shown or reversed,  
specifications, lumber  
and mill list . . . \$20.00

*Minor alterations in design and material substitutions can be handled by any competent builder, without going to the expense of making up special plans.*

No. 5724—Although considerable emphasis has been placed on landscaping the area around the house, don't overlook the beauty of the house itself. Both inside and outside you will find many desirable features. The recessed porch gives protection during inclement weather and provides an entrance to both house and garage. Siding is used on the exterior with cut stone veneer used across the front of the living room to break up the plain straight lines and add considerably to the appearance.

Complete plans as shown or reversed, specifications, lumber and mill list . . . . . \$20.00

*The "reverse" of a plan means that the rooms which are shown on the left in the photo and floor diagram would be placed on the right. All dimensions and proportions are retained in the plan as reversed. To obtain the effect of a reversed plan hold the photo to a strong light and look through the rear side. Reverses are provided to allow you to orient the house to suit your lot.*

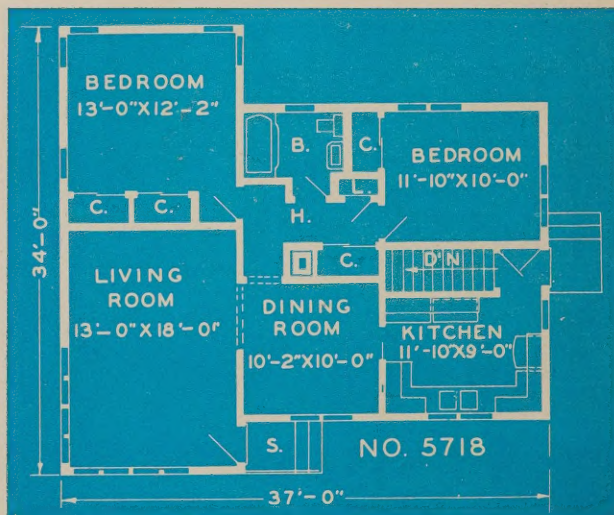

**No. 5718**—The long windows and low hipped roof give this little cottage an appearance of being much larger. This plan will be suitable for many narrow lots since it is only 37 feet wide. The bedrooms are located across the back of the house with the living room, dining room and kitchen across the front. The living room shows a large window area yet there is sufficient space for furniture placement.

Complete plans as shown or reversed, specifications, lumber and mill list . . . . . \$17.50

*The living area required will depend upon various factors including the number in the family, the age of the various members, whether or not you entertain extensively, whether you have household help, what musical instruments are owned and used—such as piano, radio, etc., the hobbies of the different members of the family, if the present furniture is to be used or new furniture purchased, and whether there are to be many guests for meals and for sleeping.*

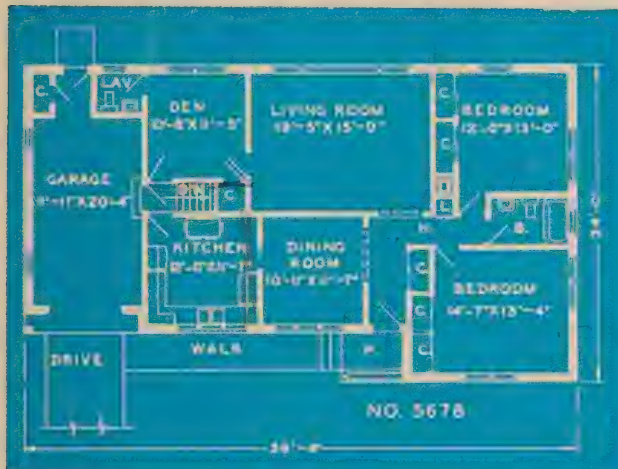

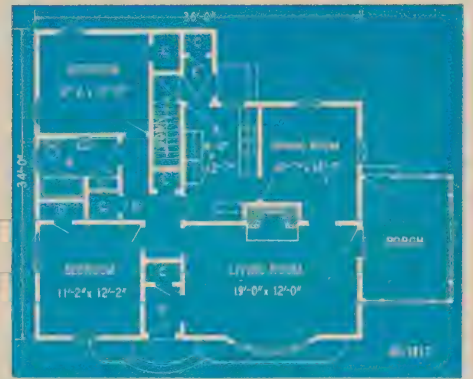

**No. 1317**—This beautiful little cottage is quite modern and up-to-date. Five rooms, bath, closets, a large screen porch, and a full basement with a recreation room, are provided by the complete plans.

**No. 6485**—Colonial atmosphere like that created by this house is always in style. The floor plan provides for an efficiently arranged kitchen with breakfast nook, well proportioned living room, dining room, two medium-sized bedrooms, screened-in porch, and one and one-half baths. The half-bath is located conveniently so that it may be reached either from the bedroom or the rear entry. Construction is of brick-veneer. Conventional shingles could be used for the roof, if desired, to replace the wooden shakes which are specified.

**No. 6078**—Deceptive in appearance, this attractive brick house contains six amply proportioned rooms and one-and-a-half baths. The living room is especially cheery due to the modern treatment with the Thermopane window in front and three large windows overlooking the terrace to the rear. The dining room, while separated from the living room by the low bookcases, may be used as a part of the living area. The compact U-shaped kitchen is a step-saver. There is a full basement to assure sufficient storage and work space for laundry and hobby activities.

In using Garlinghouse plans, the chances of  
 costly errors is reduced to a minimum.

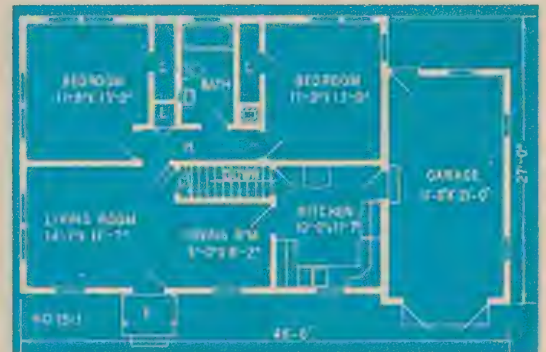

**No. 1513**—A casual glance at the long horizontal lines of this frame design will not reveal the fact that the plan might be built on a site just a little larger than the ordinary city requirements, or by elimination of the attached garage its 36½ foot frontage may be easily set on a 50 foot site. A maximum amount of space is afforded for the least amount of money by the use of straight partition lines and provisions for a full basement.

*There is one thing which should be remembered when selecting a plan for your new house. Although you are choosing a home to suit your own needs, it is wise to consider resale possibilities in case you wish to dispose of your property at some future date. In this respect a simple, attractive house, built with care and attention is your best investment in service, satisfaction, and salability.*

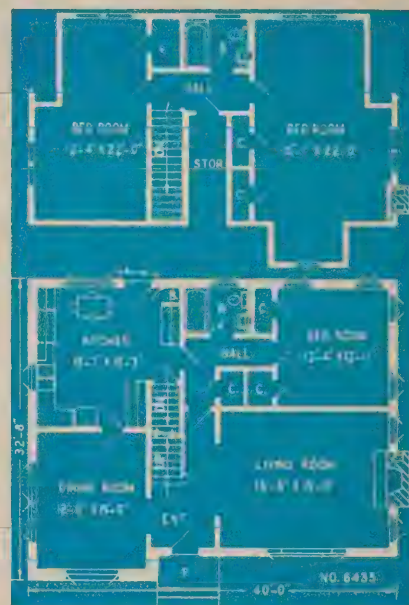

No. 6435—The ever-popular one bedroom downstairs, two upstairs, floor plan is adapted to this fine exterior. Construction is brick veneer for the first floor, except for the stone trim across the front of the dining room, and siding for the second floor.

Complete plans as shown or reversed, specifications, lumber and mill list . . . \$17.50

To Build Without Complete Plans  
Invites Misunderstandings

**No. 6248**—In this attractive brick-veneered suburban home there are many modern refinements to make the interior as delightful and convenient as the exterior is charming. The living room has the appealing front-to-rear lighting of the ranch house. Instead of having a wall partition between the living and dining rooms fluted translucent glass is used, with a folding curtain provided instead of a door. With the kitchen being reached from the vestibule hall many steps will be saved by the housewife each day.

**No. 6306**—A most attractive variation of the small house has been created in this design through the use of a combination of exterior materials. The horizontal siding tops a plywood base, with a decorative frieze outlined under the eaves. For variety the shingles are laid to produce a series of shadow lines. The interior arrangement is excellent as it allows the living room to be placed so that it has no cross-traffic whatsoever, which is unusual for a small house. There is a full basement.

No. 6107—Planned with the living quarters to face the terrace, this house is shown with a divided living and dining room. However, it is not necessary to have the partition between them and if constructed without so that the dining space becomes a living room alcove, the combined length of the rooms would be more than 26 feet. The front wall of the living room shields it from the bath and bedroom sections, yet the bath is so located that it may be used without disturbing persons in the bedroom wing. There is a half-bath in the master bedroom.

**No. 6118**—In this ideally proportioned modified Cape Cod design all four bedrooms are quite large and have two or more exposures. Because the ground floor is arranged as a luxurious five-room house in itself, this design is especially well adapted to the needs of a growing family. The second floor could be left unfinished until the family requirements were such that the extra rooms were needed. Then the front bedroom downstairs could be converted into a convenient library or den. The dormers in the bedroom are over-sized, leaving an opening sufficiently large that the space could be used for built-in dressing tables, sewing tables, or blanket chests. The dormer space in the hall is flanked by built-in linen closets.

*To the visitor approaching a home for the first time, the entrance, the front lawn, the walk, the driveway, and the landscaping contribute greatly to the first impression. He then sees a beautifully designed doorway, inviting him to enter. Through the open door he glimpses shining floors, harmonious colors and tastefully furnished rooms. He is drawn on into the house, to its comfortable furniture, its carefully thought-out appointments. On every side he sees the personality of the occupants reflected in the lovely and livable rooms. He thinks to himself, "This is a HOME."*

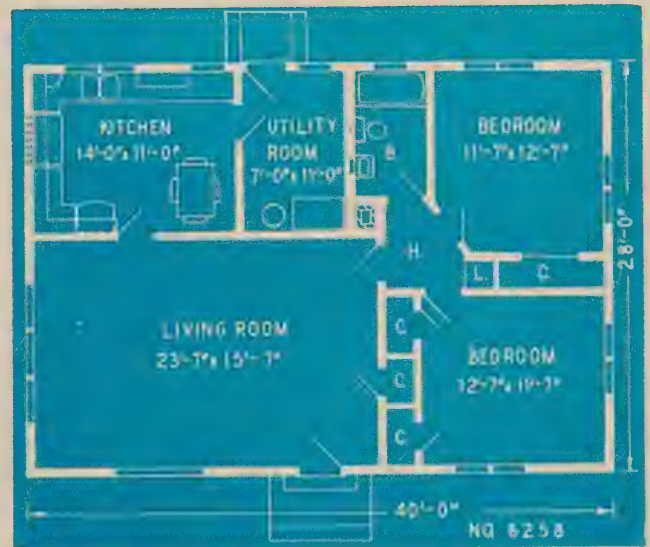

**No. 6258**—Here is a house that is ideally arranged to fit a moderate construction budget. Its simple lines assure economic construction, yet its interior arrangement is such that it provides for comfortable living in a five-room efficiency house. The U-shaped kitchen has ample dining space for ordinary occasions, and the living room is so large that a portion of it can be used for a dining alcove. Glass blocks are used for the wall opening behind the range to admit additional light to the kitchen. The bedrooms are supplied with a generous amount of closet space.

*The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot or cubic-foot basis.*

**No. 6153**—This compactly-arranged five-room house lends itself especially well to the modern vogue for use of exciting exterior decorative schemes, because the vertical gable can so easily be made either to harmonize with or contrast to the coloring in the horizontal siding and the stone trim. For greater convenience the bath is compartmented. If necessary to do so because of space limitations, the garage could be eliminated.

**No. 6273**—The centrally-located utility and heating room makes it practical to build this basementless house in virtually any section of the country. Shown here with dark-toned siding and contrasting trim, this house would look equally as attractive if painted in lighter colors. The master bedroom has a private lavatory and shower. A separate storage room for tools is built in the garage.

**No. 6163**—An answer to the problem of offering six-room efficiency in a minimum house while retaining a distinctively charming exterior is found in this three-bedroom design. Graceful pillars supporting the overhanging eaves, the picture window, and the stone trim provide attractive features to the frontal facade. The floor plan is the ultimate in compactness, yet conveniently meets the living requirements of the modern family.

 Topeka, Kansas

**No. 5302**—Skillful blending of materials and an excellent floor plan makes this a beautiful and livable ranch type home. Stone veneer, stained vertical siding and battered vertical siding make up the exterior walls. The floor plan is particularly noteworthy for the ease of movement between the rooms. The den can also be used for a bedroom when needed.

*By the reverse of a plan it is meant that the design is available so that the rooms shown on the left will be on the right, and vice versa. This is done in order that the house may be oriented to suit your lot. When you order plans they will be sent as shown unless you specify that you want the reversed plan.*

**No. 6126**—This eight room Colonial home has many noteworthy features. Each of the four bedrooms is of generous size and ample closet space has been provided throughout the entire house. The central hall plan makes each room easily accessible from either the front or the rear door. The kitchen and breakfast nook are sufficiently large that automatic laundry equipment could be placed here without creating any inconvenience. The baths are skillfully located not only to serve the bedrooms, but also the rest of the house. There are built-in book cases flanking the fireplace.

*There is one thing which should be remembered when selecting a plan for your new house. Although you are choosing a home to suit your own needs, it is wise to consider resale possibilities in case you wish to dispose of your property at some future date. In this respect a simple, attractive house, built with care and attention is your best investment in service, satisfaction, and salability.*

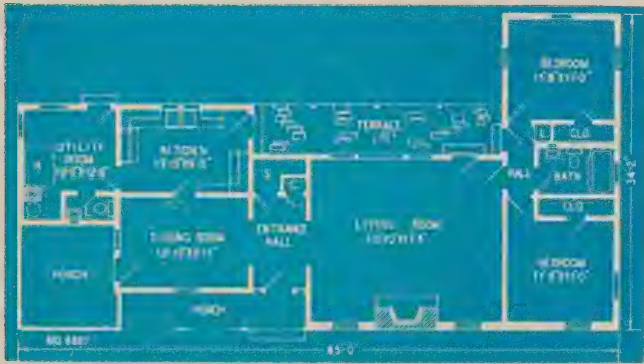

Secure complete plans from your dealer or L. F. Garlinghouse Co., Inc., Topeka, Kansas.

**No. 6697**—The long, low roof lines of this house are in keeping with the typical ranch designs that are so popular today. The plans show a very practical arrangement of rooms. The living room with the

window wall at the back opens onto a terrace. The house is frame with a sided exterior with the exception of the front of the living and bedroom which is brick veneer.

▼  
The plans shown in this book represent only a fraction of the total number of designs which are available to you. In the plan books listed on the back cover of this book we have hundreds of designs from which you may choose the one you wish to build.

## **COMPLETE PLANS AVAILABLE**

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

## **24-HR. SERVICE ON PLAN ORDERS!**

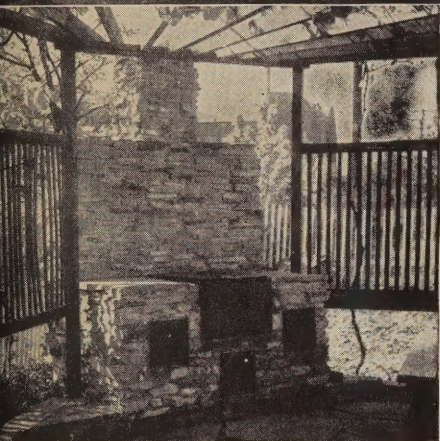

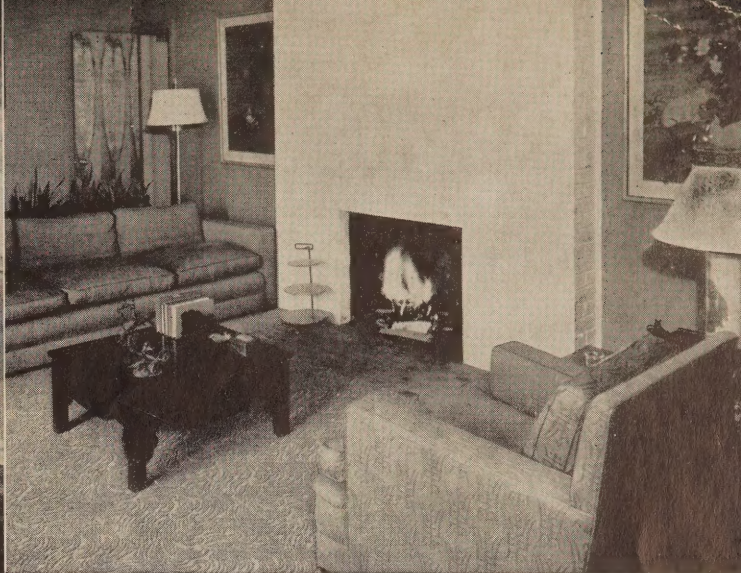

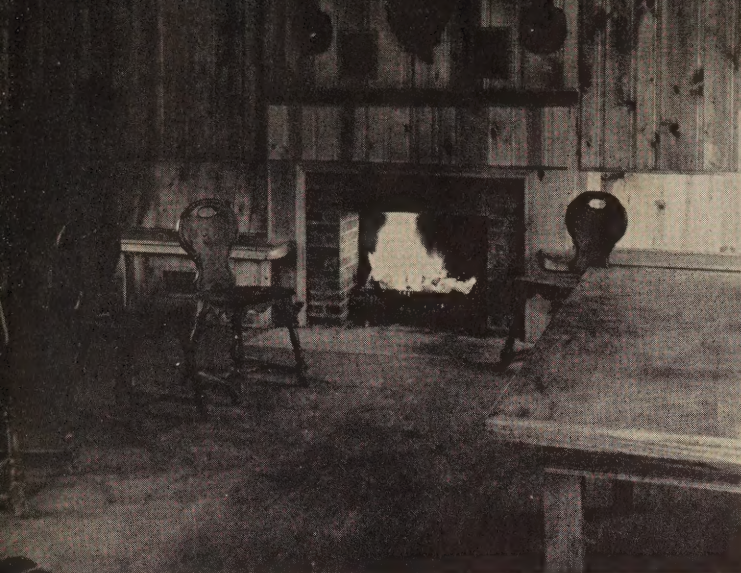

Use this handy order blank. Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order!

## To the 82% who want Fireplaces

Surveys show that 82 percent of those planning homes want fireplaces in them. To all such, we recommend study of the Donley Book of Successful Fireplaces . . . a book that tells the principles of getting cheerful heat without annoying smoke . . . a book that gives you scores of suggestions for the way your fireplace may look . . . a book acclaimed as the best source of fireplace details and therefore used as a text in architectural and trade schools . . . Learn how to plan a conventional masonry fireplace, a 2 sided corner fireplace, 3 sided fireplaces, or a double opening fireplace that serves two rooms . . . how to install a prefabricated, steel fireplace, enclosed in masonry, that multiplies heat and circulates it throughout the room or house. Fuel saved by this Heatsaver Fireplace repays its extra cost in a few years.

If your interest is in an outdoor fireplace or barbecue, there is the booklet Donley Outdoor Fireplaces to guide you in getting the most satisfaction for the least effort and cost.

### WHICH BOOKLET SHALL WE SEND?

Put a check mark in square No. 1 or No. 2 on the coupon according to your preference. For No. 1 send 50 cents (U. S. stamps accepted) and receive Book of Successful Fireplaces, 76 pages, 275 pictures, plans, diagrams dealing with both indoor and outdoor fireplaces. For complete information on outdoor fireplaces, send 25 cents and mark No. 2.
